

Mission Supports Information Sheet

Find Them & Serve Them

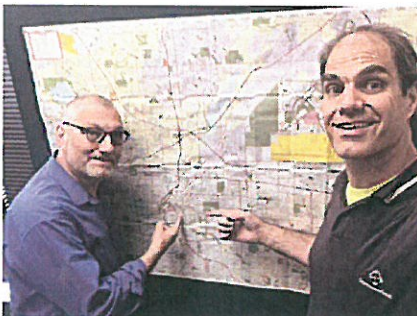

Call our new Mission Supports Intake/Resource line

If you or someone you know has an intellectual and developmental disability and is experiencing homelessness (or at risk of homelessness) in Denver, please call:
(720) 772-5725

Mission Supports Homelessness Program Summary

- Finding those in Denver who have intellectual and developmental disabilities (child-onset) and at risk of or experiencing homelessness.
- Assisting those we connect to in the application/reapplication, or maintenance of any and all available community and government housing and disability programs, including collecting required documents for eligibility in order to qualify for permanent services through appropriate Colorado Medicaid programs specific to serving those with intellectual and developmental disabilities.
- Seed and nurture new communities established through our connections with those we are serving and the involvement of peer advocates, both paid and volunteer.
- Establishing and maintaining cooperative relationships with government agencies and services, along with community organizations that will aid in introducing appropriate referrals to our program, as well as the stabilization of those we serve after we connect with referrals.
- Sponsoring interest and/or need specific events for education, skill building, life planning, and entertainment/recreation.
- Track individual details, barriers and outcomes of those we serve for the purpose of reporting and providing current data to Rocky Mountain Human Services, Denver City Council, and Metro Denver's Homeless Initiative's Homeless Management Information System.

CFPD has been awarded 2017 Mill Levy funding through Rocky Mountain Human Services, and the city and county of Denver, for our new Mission Supports program to confront homelessness among at-risk adults and children who have intellectual and developmental disabilities in Denver.
