Family Respite Voucher
Approved Provider List

Family Respite Vouchers may only be utilized with Approved Providers from the following list. You may choose to use one or multiple providers for care. No individual (family member, friend, etc.) or independent providers may be used for respite services in this program.

You must notify the Colorado Respite Coalition of your chosen respite provider within 2 weeks of approval date. Vouchers must be used within the award term on award letter. Caregivers are responsible for scheduling, supervision and review of provider credentials.

Next Steps: Contact the Colorado Respite Coalition to accept or return your voucher award; select an Approved Provider (list follows) to schedule respite services, and present them a copy of your voucher award. The Approved Provider will bill the Colorado Respite Coalition directly up to your full voucher dollar amount. Enjoy the respite!

For any questions or concerns regarding Approved Respite Providers or the voucher program, contact Amy Kirchberg at akirchberg@eastersealscolorado.org or (303) 233-1666 x253
Meghan Kluth at mkluth@eastersealscolorado.org or (303) 233-1666 x257

All providers must be deemed eligible and submit an application to Easterseals Colorado prior to providing respite care services. Providers on this list undergo fingerprint-based background checks and maintain proper insurance.

If your desired provider is not included on the Approved Provider list, contact the Colorado Respite Coalition to see if they meet the qualifications and are willing to register as a respite provider for the program.
What type of respite do I need?

**Respite care**: A short break for family caregiver. Bringing in outside support to relieve the caregiver of their caregiving responsibilities, allowing them to refresh knowing their loved one is safe and well-taken care of.

Explore the types of respite below and determine the best fit for your family.

**Types of Respite**

**In-home respite**: A care provider comes to the home of the caregiver or individual receiving care to provide care. In-home care is typically provided at a one to one ratio. Care services may include personal care (dressing, brushing teeth, bathing), meal preparation, medication reminders, and/or light house work or chores.

**Day Program (Out-of-Home Respite Care)**: Care is provided in a specific location typically to a group of individuals. Caregiver drops off and picks up after the respite period is complete. Day programs offer social opportunities, entertainment, and recreation.

**Overnight respite**: Care is provided for a continuous 24 hour period or longer, in-home or in a center-based setting.

**Camp/Recreational Respite**: Camps and recreation centers offer a variety of activities that may include sports, art, outdoor adventures, games and more. These activities are adapted to be enjoyed by individuals with disabilities and extensive care needs. Programming may be available during the day or overnight.

**Community Connector**: Respite programming includes excursions into the community individually or in groups. This promotes social skills, community integration and inclusion in the community.
